

Industrial Visit to 33/11 kV Substation, Choutuppal, Telangana on 23rd April, 2024

The Department of EEE has organized an industrial visit for 4th Year EEE students along with 2 faculty members to 33/11 kV substation in Choutuppal Telangana. This visit provided the students with valuable practical exposure to power transmission and distribution systems. During the visit, they learned about the key components of a substation, including transformers, circuit breakers, isolators, and bus bars.
