Professional Societies Chapters

Vision of the Institution

To achieve the autonomous & university status and spread universal education by inculcating discipline, character and knowledge into the young minds and mould them into enlightened citizens.

Mission of the Institution

Serving the high quality educational needs of local and rural students within the core areas of Computer Science and Engineering and Information Technology through a rigorous curriculum of theory, research and collaboration with other disciplines that is distinguished by its impact on academia, industry and society.

ABOUT CSE DEPARTMENT

The B.Tech program in Computer Science and Engineering (CSE) was started in the year 2001 with an intake of 60, enhanced to 120 in 2009, 120 to 180 in 2013 and 180 to 240. The main focus of the department is to produce graduates & post graduates with strong fundamentals in Computer Science and Engineering domain. Computer Science and Engineering programme is designed to create globally competent manpower for the information and communication technology (ICT) industry. The course is an outcome based structured to help students to achieve this goal. The course was accredited by National Board of Accreditation (NBA) since 2007. The department comprises well qualified faculties.

BIET also offers two year full time post graduate programme Approved by All India Council of Technical Education(AICTE) for the student of BE/B.Tech in any branch of engineering.

- M.Tech (Computer Science and Engineering)
- M.Tech (Software Engineering)

Vision & Mission of CSE Department

Vision

Serving the high quality educational needs of local and rural students within the core areas of Computer Science and Engineering and Information Technology through a rigorous curriculum of theory, research and collaboration with other disciplines that is distinguished by its impact on academia, industry and society.

Mission

The Mission of the department of Computer Science and Engineering is to work closely with industry and research organizations to provide high quality computer education in both the theoretical and applications of Computer Science and Engineering. The department encourages original thinking, fosters research and development, evolve innovative applications of technology.

Computer Science and Engineering Program: Objectives & Outcomes

Program Educational Objectives (PEOs)

The Computer Science and Engineering program provides students with an in depth education in the conceptual foundations of computer science and in complex hardware and software systems.

Program Educational Objective 1: (PEO1)

The graduates of Computer Science and Engineering will have successful career in technology or managerial functions.

Program Educational Objective 2: (PEO2)

The graduates of the program will have solid technical and professional foundation to continue higher studies.

Program Educational Objective 3: (PEO3)

The graduates of the program will have skills to develop products, offer services and create new knowledge.

Program Educational Objective 4: (PEO4)

The graduates of the program will have fundamental awareness of Industry processes, tools and technologies.

Program Outcomes (POs)

Graduates from accredited program must achieve the following learning outcomes, defined by broad areas of learning.

PO1: Engineering Knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

PO2: Problem Analysis: Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

PO3: Design/Development of Solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.

PO4: Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

PO5: Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.

PO6: The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

PO7: Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

PO8: Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

PO9: Individual and team work: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

PO10: Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

PO11: Project management and finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

PO12: Life-long learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

Program Specific Outcomes (PSOs)

PSO1: Foundation of mathematical concepts: To use mathematical methodologies to crack problem using suitable mathematical analysis, data structure and suitable algorithm.

PSO2: Foundation of Computer System: The ability to interpret the fundamental concepts and methodology of computer systems. Students can understand the functionality of hardware and software aspects of computer systems.

PSO3: Foundations of Software development: The ability to grasp the software development lifecycle and methodologies of software systems. Possess competent skills and knowledge of software design process. Familiarity and practical proficiency with a broad area of programming concepts and provide new ideas and innovations towards research.

DEPARTMENT ACTIVITIES

Seminars/workshops/guest lectures conducted

The Department of Computer Science and Engineering has conducted One Day Workshop on Cyber Security, Forensics & Python Programming under CSI & ACM Student Chapters on 7th March, 2019

Resource Persons: Dr. K. Suresh Babu, Associate Professor, CSE, JNTUH & Dr. G. Narimha, Professor, CSE, JNTUH

CSE / IT Department Conducted Summer Training: 2018 by CSE/IT faculty for II, III, & IV Year B.Tech students from 04 June 2018 to 07 July 2018.

Industry Visits

The students were exposed to the latest trending 5G technologies during their visit to BSNL Office.

Webinars

Webinar on leadership skills was conducted by MHRD in association with Innovation Cell on 8th Jan, 2019 and the speaker was Mr. Anand Mahindra, Chairman of Tech Mahindra

Live Session for India First Leadership Talk Series Episode-2 on Planning for career by Dr Anand Deshpande Founder Chairman and Director, Persistent Systems Organised by MHRDs Innovation cell conducted at BIET IIC on 24th January 2019 from 11.30 am to 12:30 pm through Facebook Live

BIET Volleyball team has won 15000 rupees cash prize in Inter Engineering College Competitions

College Athletic meet held on 14th March at BIET Grounds

Sports Events: 2018-2019

CHAIRMAN felicitated VOLLEY ball runners at CVR college

Motivation to Succeed

"LARRY USED TO SAY IF YOU WORK ON REALLY DIFFICULT THINGS YOU ARE BETTER OFF BECAUSE THAT WAY YOU DON'T HAVE COMPETITION, AS OTHERS ARE NOT WORKING ON THAT DIFFICULT A PROBLEM. AND EVEN IF YOU FAIL, YOU END UP DOING SOMETHING GREAT IN THE PROCESS – THAT'S THE PHILOSOPHY THAT GUIDED US ALL THROUGH THESE YEARS."

"You might fail a few times, but that's OK. You end up doing something worthwhile which you learn a great deal from."
